Dear Sir,

Port Marine Safety Code: Statement of Compliance

This letter is provided on behalf of Montrose Port Authority as confirmation of our compliance in meeting the requirements and standards under the Port Marine Safety Code.

The port has developed a Marine Safety Management System based on formal risk assessments demonstrating our commitment to marine safety and ensuring the safety of all key stakeholders, the wider public and the environment. The management system is subjected to regular internal and external audits as part of a programme of continuous improvement, identifying areas of weakness and strength.

An independent Designated Person has direct access to the Duty Holder through a competent Member of the Board.

We are assured, therefore, that Montrose Port Authority complies with the Port Marine Safety Code.

John Carmichael
Chairperson of the Board

Captain T Hutchison
Harbour Master
